2018 launch in a 100W, 150W and 200W

With 300W Pole lighting products released last year, we have accomplished more than 10 projects in addition to Kyungil University and Gueum lak intersection.

In 2018, it is expected to enter the landscape lighting and sports lighting market with more power range and higher performance.

Egtech will make every effort to make a better world for its customers with differentiated products every year.
