EGM Tech News

EGMtech Strengthening export capacity (Indonesian)

Recently, EGM TECH exported 150 samples, including factories, to The factory in Indonesia for sample installation.

In particular, Indonesia was very difficult to export because of the strict regulations on customs. However, the success of the company has made it possible to increase its overseas export capacity.

As the supply of domestic lighting market becomes more difficult, Vietnam is exporting not only to Indonesia but also Japan, the Middle East and Southeast Asia based on the introduction of the branch office in Vietnam.

Global issue (Transfer of Indonesian capital)

On April 17, the President of Indonesia, who is sure to be president, is touring the candidates shortly after he decides to relocate the capital.

Presently, before the presidential election, many presidents have promoted the relocation of the capital but the relocation has not occurred.

The presidential election is expected to take up 60 percent of the parliamentary seats in the ruling coalition party, and it is expected that the transfer of capital will be approved by the National Assembly.

He said that he has traveled to the eastern part of Indonesia by reason of balanced national development and considered it as a convenient capital destination for transportation with major cities.

If the capital is transferred in this way the balance of development will become more active and the regional economy will be revitalized and the construction business will be actively promoted and the surge of the indirect high-rise buildings of the capital Jakarta will be relieved.

Product in use

Lighting for construction work

LED 170W cylindrical lighting suitable for indoor construction work lighting

Product Features

01. Indoor work lighting

High brightness LED
High Power
High Efficiency

02. Connectable

200V Connecting (up to 10 connectable)
Connectable to power

03. Portability

Light weight
Easy to carry
Easy to install

04. Able to separate

Separable for indoor or outdoor

Specifications

LED	Material	Beam angle	Color	Color
170W	Aluminum	120°	White	10000K
Beam angle	1700mm	1700mm	1700mm	1700mm

Power	Input voltage	Max. Cable length	Material	Weight
170W	AC 100-200V	2000m (1000m)	Aluminum	17.5kg

Product dimensions (1700mmx1700mmx1700mm)
